

Nottingham Rowing Club

Safety and Environmental Policy

Nottingham Rowing Club has a zero tolerance for anyone or the environment being harmed as a result of our members' participation in the sport.

We believe that harm is not an inevitable consequence of our activities and that incidents that cause harm can be avoided. We will strive to provide an environment in which the sport can be practised safely and enjoyably by our members whilst causing no harm to the environment. We will guide and lead our members in a way that fulfils these aims.

We recognise that our members have primary responsibility for their own safety and the safety of others, together with a responsibility to protect the environment. The Club, through its Officers and Committee, will encourage safe practice having due regard for the guidance provided by British Rowing in RowSafe and in the Sustainability Guidance.

The Club has safety rules that it expects its members to respect; these can be found on the club website and the club safety boards. Complying with these rules will help to prevent harm.

The Club is also committed to learn from the incidents it becomes aware of and will share this information to help others in the sport to learn too. We are committed to make appropriate use of British Rowing's Incident Reporting System to report both Safety and Environmental Incidents.

Members are invited to refer any questions and concerns, relating to safety, to the Club's Rowing Safety Adviser.
